

June 5, 2014

Dear Students and Parents,

Did you know that one to two months of academic knowledge is lost during the summer break? This doesn't have to happen. The Math Department at Bandera Middle School wants to give you access to resources that can help you keep all your math skills you've worked so hard to learn during the 2013-14 school year. Here are some great online computer programs that will be available to work on all summer long:

"Study Island"

www.studyisland.com

Username: **first initial last name last 4 digits of their student ID @ BMS**

Password: **5 digit student ID (lunch number)**

"Think Through Math"

www.thinkthroughmath.com

Username: **first initial last name last 4 digits of their student ID**

Password: **5 digit student ID (lunch number)**

Have Fun this Summer! Keep Practicing and Keep Learning!!

The Math Department at
Bandera Middle School
